

JOURNAL

OFFICE OF LEGISLATIVE COUNSEL

Wednesday - 12 September 1962

STAT

2. (Unclassified - GLC) Robert Downer, Department of State, called to say that Senator Warren G. Magnuson had contacted the Department regarding a geophysical study which was being conducted by Robert and Anita Barnard. The study is being conducted as part of an agreement between the University of Washington and the government of Mexico. The Barnard's have apparently gotten into some difficulty in Mexico and Downer was inquiring as to whether we had any interest in this project. After checking with WH Division and OO Division, I advised Downer that while we were aware of what the Barnard's were doing, a preliminary check indicated that we had no interest in their activity.

3. (Internal Use Only - JSW) General Carter, together with representatives from DOD and State Department, appeared before the joint Committees of House Armed Services and House Foreign Affairs. See Memorandum for the Record.

4. (Internal Use Only - JSW) Delivered to Boyd Crawford, House Foreign Affairs Committee, a blind memorandum pertaining to his query See Journal of 11 September 1962.
